

Enler Centre website launched

The Enler Centre is an exciting new initiative at the heart of Ballybeen, developed by Landmark East with support from Belfast Regeneration Office, Castlereagh Borough Council, NI Housing Executive, International Fund for Ireland, South & East Trust and many groups within the local community.

Construction is now well underway on the Enler Centre which will house new and existing retailers from Ballybeen Square, alongside a new daycare facility for elderly people, managed by the South & East Belfast Trust and new community facilities managed by Castlereagh Borough Council.

A website dedicated to the Enler Centre project is now available at www.enlercentre.com, so that Ballybeen residents and other interested individuals can find details on the project and follow its progress online.
